KILLING INNOCENT PEOPLE AND
PROTECTING VIGILANTES

Urge ALEC to stop promoting its lethal "Kill at Will" law.

The "**Kill at Will**" law is being used to justify Trayvon's killing and may prevent the prosecution of his shooter. Since the **NRA** wrote this law for Florida in 2005, the "justifiable homicide" rate there has jumped **300%**.

The **NRA** – a major **ALEC** benefactor – then helped pass similar legislation in 30 states - and the tragic body count is growing.
