Dear Mr. Thompson,

We refer, in particular, to recent press coverage and we encourage your organisation to continue to approach us about any activities in our industry which may be causing you concern. *take no notice of us anyway.*

At the same time we wish to point out that should actions of your group cause wrongful harm to our industry or to any individual involved in our industry as a whole then you will leave us with no course of action other than to enforce our rights at law.

Yours faithfully,

L.R. Green. ? *Buzz? Yes.*
